

# YASIRU HARINDA EDIRIMANNA

Computer Engineering Undergraduate

+94 768361089 harindayasiru@gmail.com 156/D, Remuna, Anguruwathota

## ABOUT ME

Motivated Computer Engineering undergraduate with hands-on experience in AI, embedded systems, robotics, cloud-based applications, and web application development using React. Python, AWS, machine learning, and real-time system development. Strong team collaborator with experience in academic and industry focused engineering projects.

## EDUCATION

|   |             |
|---|-------------|
| <b>Bachelor of Science in Engineering (Computer Engineering)</b><br>University of Peradeniya<br>GPA 3.4 | 2022 - 2026 |
| <b>GCE A/L</b><br>D.S. Senanayke College Colombo 7<br>A/L 3A's  | 2020        |

## PROJECTS

### PEBO – AI Desk Assistant Robot (3rd Year Project )

Role: Voice assistant, emotion detection, user recognition, AWS backend  
An **interactive desk assistant robot** that offers emotional support, entertainment, task management, and voice assistant.  
Tech: Raspberry Pi 4, Python, AWS, Gemini API, OpenCV

- Selected as a Top 10 IESL Undergraduate Project – 2025
- Won 3rd Place at I to I Competition – University of Peradeniya
- Showcased at Techno 2025 Exhibition and Engex 2025

### Mona Dashboard – Factory Production Monitoring System (2nd Year Project)

The Mona Dashboard project addresses the production challenges of factories manufacturing plastic toys using mold in real time  
Tech: MongoDB, React, Node Js

### AI-Driven Automated Feedback & Tutoring System For Higher Education (Final Year Project )

Conducting literature review on AI-in-Education and LLM tools. Designing plugin for automated, personalized feedback and tutoring  
Tech: Python, LLM APIs, EdTech tools

### Air Quality Analyser – Hybrid LSTM & Fuzzy Logic Model (Group Project)

Designed a hybrid forecasting model combining LSTM neural networks with Fuzzy Logic Systems to improve air quality prediction accuracy.

## CERTIFICATIONS

- Microsoft Azure Machine Learning for Data Scientists – Microsoft
- Advanced React – Meta
- React Basics – Meta
- Databases and SQL for Data Science with Python – IBM
- Certification Program in Microsoft – SLIT
- Spoken English for Professional Excellence – Aquinas College of Higher Studies

## EXTRACURRICULAR ACTIVITIES & ACHIEVEMENTS

---

- University Air Rifle Team – Represented University of Peradeniya
- Participated in coding competitions and project competitions, including:
  - IESL UIY (Top 10 projects)
  - I to I Competition – 3rd Place – University of Peradeniya
- Showcased PEBO project at Techno 2025 Exhibition and Engex 2025
- Demonstrates discipline, teamwork, and competitive spirit

## SKILLS

---

- Programming & AI: Python, C, JavaScript, LLMs, Prompt Engineering, Machine Learning, Embedded Systems (Raspberry Pi, Microcontrollers)
- Web & Software: React.js, Web Application Development, Front-End Development, Web Accessibility, UI/UX Design, SEO Fundamentals, Color Theory, Typography
- Cloud & Tools: AWS, Azure, Git, MATLAB, SQL, MongoDB
- Soft Skills: Teamwork, Problem-Solving, Communication
